

TübingenNeuroCampus Online Workshop „Perspectives in Neurosciences in Tübingen“

Do you have a first idea or already advanced concept for a neuroscientific excellence cluster application for 2025 and would like to discuss it?

Are you planning a Collaborative Research Center (SFB), Graduate School, Research Training Group (Graduierertenkolleg) or Research Group (Forschergruppe), an ERC-grant or other and would like to have some input from like-minded people or are you looking for new partners?

Call for Contributions

Deadline: January 18th 2021

We are looking for:

- ◆ **Ideas** (early stages) on 2 or 3 slides

Pitch your idea in just a few minutes. What do you have in mind? You can be creative, innovative etc.

or

- ◆ **Concepts** (advanced stages) on ~ 5 slides

1. Title and Core Questions

2. Why in Tübingen?

Show your own previous work, collaborations with other institutes
How is it embedded in the Tübingen research landscape?

3. What's missing on the way to finalize it?

Analyse your strenghts and weaknesses

4. Who in Germany is doing similar work?

Distinction from the competition

for the next excellence cluster application, as well as SFBs, Research Training Groups, Research Groups etc.

Send your slides until Monday, January 18 to silke.dutz@medizin.uni-tuebingen.de

Workshop part II on February 1st 2021

On **Monday, February 1st, 2021 from 3-5pm** we will meet via Zoom where you can present your slides.

The Zoom login details will be available in mid January.

Any questions, contact silke.dutz@medizin.uni-tuebingen.de
